WOOD | BRICK | STONE

Superior Concrete Products is a Pioneering Leader in Building . . .

Superbly Designed and Crafted Precast Concrete Tiny Houses

Superior Concrete Tiny Houses proudly announces . . .

The Cleburne Ranchette

*a Luxurious Tiny Home, Customized in a Rustic Ranch Style
Made of Reinforced Precast Concrete!*

Superior Concrete Tiny Houses' first home is the award-winning **The Cleburne Ranchette**. Measuring 20' x 30', The Cleburne Ranchette has 600-square-feet of custom finished space giving the home a luxurious, but carefree rustic ranch architectural style. Featuring two-bedrooms and a full-size bath, the Ranchette has been recognized by the National Precast Concrete Association, as the first-place winner for the Creative Use of Precast Concrete in the Outdoor Category in 2016. Packed full of amenities similar to those found in much larger homes, this tiny of home is equipped with a large kitchen, full-size stainless steel appliances and granite countertops. Fully-customizable according to taste and budget, the Ranchette is built on an engineered concrete foundation out of recycled precast panels in a maintenance-free Superior Brick™ texture.

"People who enjoy the tiny home life-style, appreciate energy-efficient designs that minimize the cost of utilities and maintenance, while providing the luxuries and comfort of home ownership."

- Todd Sternfeld

***All Superior Concrete Tiny Houses are customizable from start to finish!
If you can envision it, we can build the tiny home of your dreams!***

About Superior Concrete Products and Superior Concrete Tiny Houses:

For more than thirty years, Superior Concrete Products has been engineering, manufacturing and installing modular precast concrete walls, fences, structures and other barrier systems, and now the company is debuting its newest product line -- Superior Concrete Tiny Houses. Superbly designed and crafted tiny homes and cabins, these dwellings offer a smart custom look that stands out wherever it goes – whether it be a lake lot, a hunting lodge, a granny pod or a micro unit hauled behind a truck. Superior Concrete Tiny Homes are built to last. Constructed and engineered from modular precast concrete available in a variety of wood, stucco, brick or stone finishes, home components can be shipped anywhere in the world. Certified by the National Precast Concrete Association, the company is headquartered in Euless, Texas, and the state-of-the art manufacturing facility is in Cleburne, Texas.
